PROFESSIONAL SUMMARY

Data Analyst Fresher pursuing a B.Tech in Artificial Intelligence and Data Science with skills in Python, SQL, Power BI, Excel, and Machine Learning. Experienced in data analysis, data visualization, dashboard development, and exploratory data analysis (EDA) through academic projects and internship experience. Seeking an opportunity to apply analytical and problem-solving skills to support data-driven business decisions.

EDUCATION

- Sengunthar Engineering College** Tamil Nadu, India
 - Bachelor of Technology (B.Tech) in Artificial Intelligence and Data Science — CGPA: 7.77/10 Sep 2023 – Jun 2027*
 - : Relevant Coursework: Data Structures and Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning, Data Analytics, Statistics

TECHNICAL SKILLS

- **Programming:** Python, SQL, R
- **Data Analytics:** Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization
- **Business Intelligence:** Power BI, Tableau, Dashboard Development, KPI Reporting, Business Intelligence
- **Databases:** MySQL, PostgreSQL, SQL Server
- **Libraries Tools:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook, Google Colab
- **Version Control:** Git, GitHub
- **Soft Skills:** Problem Solving, Analytical Thinking, Communication, Team Collaboration

EXPERIENCE

- Cognifyz Technologies** Remote
 - Data Analyst Intern* Jun 2025 – Jul 2025
 - : Analyzed and cleaned datasets using Python, SQL, and Excel to improve data quality.
 - : Performed Exploratory Data Analysis (EDA) to identify trends and business insights.
 - : Built interactive Power BI dashboards and KPI reports for data-driven decision-making.
 - : Utilized Pandas, NumPy, and SQL for data manipulation and performance analysis.
 - : Presented analytical findings through reports and visualizations to support business objectives.

PROJECTS

- **Sales Performance Dashboard (Power BI, SQL):** Developed an interactive Power BI dashboard to analyze sales performance, revenue trends, profit margins, and regional KPIs. Automated reporting and enabled data-driven decision-making through dynamic visualizations. Tech: Power BI, SQL, Excel. (May '25)
- **Customer Churn Prediction (Machine Learning):** Built a machine learning model to predict customer churn using historical customer data. Performed data cleaning, feature engineering, exploratory data analysis (EDA), and model evaluation to identify key churn factors. Tech: Python, Pandas, NumPy, Scikit-learn, Matplotlib. (Mar '25)
- **E-Commerce Data Analysis (SQL, Tableau):** Analyzed 100,000+ e-commerce transactions to uncover customer behavior, product performance, and revenue trends. Created dashboards and generated actionable business insights using data visualization techniques. Tech: SQL, Tableau, Excel. (Jan '25)

CERTIFICATIONS

- **Data Analytics Certification:** Unstop — Data Analysis, Data Visualization, Business Intelligence, KPI Reporting (2026)
- **Microsoft Excel Certification:** Skill Course E-Learning Platform — Advanced Excel, Pivot Tables, XLOOKUP, Dashboards, Data Cleaning (2025)
- **Python Programming Certification:** GeeksforGeeks — Python, Data Structures, OOP, Pandas, NumPy (2025)
- **Machine Learning Certification:** UniAthena — Supervised Learning, Unsupervised Learning, Feature Engineering, Model Evaluation (2025)

EXTRA-CURRICULAR ACTIVITIES

- Participated in ArtPark CodeForge Hackathon organized by IISc Bangalore, developing an AI-based hotel demand prediction model using machine learning, predictive analytics, and data analysis techniques.
- Completed Deloitte Australia Data Analytics Job Simulation on Forage (July 2025), gaining hands-on experience in data analysis, data visualization, dashboard development, and business intelligence reporting.
- Completed Tata GenAI Powered Data Analytics Job Simulation on Forage (June 2025), applying generative AI, data analytics, problem-solving, and business insight generation to real-world business scenarios.
